**WORK SESSION @ 5:30 PM**

**BEGAN @ 5:33 PM**

Workshop held to discuss purchasing a street sweeper for the City of Coquille. Public Works Director Denning presented his research that he has done on different models of street sweepers, prices, and the reasons why one is needed.

Councilor Parker said she does not believe it would be a good investment.

Councilor Marshall said the street sweeper is something the city needs, but might not be the right time to buy one. He also asked questions about how to dispose of the collections from the sweeper.

Mayor Flaherty said he liked Director Denning's presentation. He agreed that it is something that needs to be done, but maybe not right now.

Councilor Rowe suggested finding a cheaper model of street sweeper. He said that he would like to see a schedule put in place for grading the gravel roads in the city first.

Councilor Westrum had questions about getting manual labor to take care of grass and weeds growing on sidewalks.
